YEAR BOOK

1930 - 1931

Foreword

Though an apology is not necessary we deem an explanation in good form.

At the beginning of the school year no thought of an Annual or Year Book seemed to be in sight. Due to the efforts of Mr. Sloan, Mr. Reid and Mr. Derby, it was decided that Scott should have a weekly newspaper.

A staff was chosen and also a name; after a short delay the *Scott Recorder* began to make its weekly appearance. This publication was started with the idea of supplying school news and activities by the students themselves and not as a source of profit. It was soon discovered a balance was gradually piling up on the right side of the column and the question arose—"What to do with this balance?"

The newspaper staff decided that we should have a Year Book of some sort and the idea was put up to our principal, Mr. McLeod, who decided that it was too late to think of going about the business in the regular way, getting advertising, writeups and a large number of pictures. Therefore it was decided that a small book, all photos, should be published. Some may protest that some photos which they expected to be in were not included, but we put in as many as possible with the funds at our disposal.

We wish to thank the Literary Executives for their generous donations towards our cause, also Mr. McLeod and the other teachers who co-operated with us. We wish also to thank the Commercial Printers for their interest and assistance and also the Hollywood Studios.

This year has been the first year that Scott has had a paper and we hope it is not the last. We hope to see the *Scott Recorder* an accepted part of school life from now on. The carrying out of this objective depends on the co-operation between the students, teachers and those of the staff of the paper.
